

I oppose loosening the rules designed to promote and protect diversity of media ownership. These rules were adopted to ensure that the public would receive a diverse range of viewpoints from the media, and not simply the opinions of a handful of media conglomerates.

i long ago stopped watching television because of the lack of quality programming, the proliferation of advertising, the gloss-over and coverup of the real issues that should be news but are ignored by all television news networks, and the dominance of a very select handful of corporate media giants that control the airwaves, due in large part to the granting of licensing by the fcc, which has a stranglehold on the availability of more choices for the viewing public. the current pending laws regarding station ownership and the loosening of regulations intended to promote media diversity is a travesty being foisted upon the American people and I, for one, strongly oppose this legislation and urge those who are responsible for these important decisions to not allow this sort of political underhandedness to continue. Please allow the airwaves to be returned to the voice of the people , accessible on the local level, and not continue to be the mouthpiece and sole propriety of mega!-corporations
